

Goals: To Dos and Milestones

OAuth

OAuth authentication using Discord and Github are setup, but don't work (for reasons yet unknown). There's a thread in the DokuWiki Forums [here](#).

Device Articles

Create and populate articles for all the Hackberry versions.

1. Hackberry Pi Zero
2. Hackberry Pi 4B
3. Hackberry Pi 5
4. Hackberry Pi CM5

OS Articles

Create pages for each OS and fill them with instructions, as well as working configs and bootable images.

1. Raspberry Pi OS
 1. Pi0
2. Kali
3. Parrot
